

MADE IN BRITAIN

MULTI-TURN

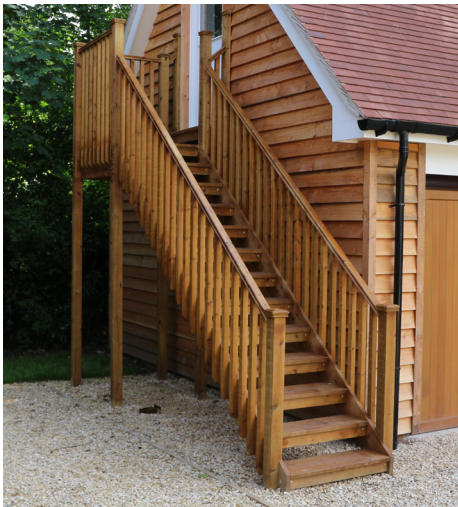

— TIMBER STAIRCASES —

EXTERNAL STAIRS

WE KNOW STAIRS INSIDE AND OUT

FEATURES OF MULTI-TURN EXTERNAL STAIRS:

- Open riser design with downstand timber riser
- Galvanised steel feet to newel posts to keep the timber off the ground
- Spindles fitted to side of face string to eliminate water trap in baserails
- Galvanised steel tread brackets to remove water trap of tread housings
- Softwood external stairs can be supplied pre-tanalised
- Iroko and Accoya are often used due to their weather-resistant properties

Hazeley Road, Twyford, Winchester, Hampshire, SO21 1QA.
